

Our Thriving World Community MISSION

We empower individuals and organizations to act in the world based on deeply authentic values rooted in attuned, mindful connection with Source*, Self, and Others, without objectifying or exploiting people, animals, ecosystems, or the Earth.

Our work restores, maintains, and repairs attuned connection with Source*, Self, and Others, making it possible for everyone to live, learn, create (work), play, and rest in ways that support everyone's thriving.

We fulfill our mission through Thriving World inspirational teachings, educational programs, learning and practice communities, retreats, individual and relationship guidance, and our own daily practice.

** Source -- or God, Goddess, Allah, Spirit, Life, Adonai, The Universe, The Force, The Numinous, or whatever other Name you may know it by. We honor all ways of Knowing Source that honor all Life without domination, objectification, or exploitation.*
